

# WEATHER DIAL

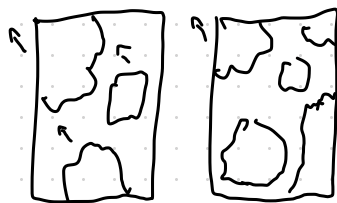

- Based on comfort meter

What am I working with

- Temperature (°F)
- Precipitation (in)
- Probability (%)
- Humidity (%)
- Wind speed (mph)
- Bearing (°)
- Cloud cover (%)

## CLOUD SKY

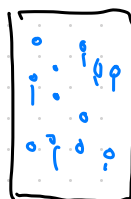

- Clouds moving  
cloud sky

## RAIN PEOPLE

50% precip → 

75% 

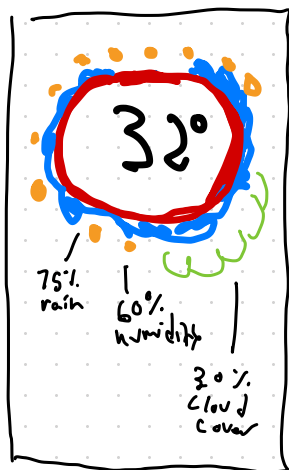

## HUMID GLASSES

50%

75%

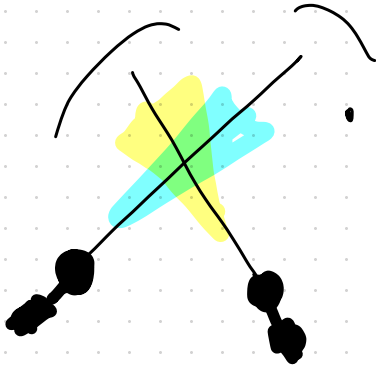

RINGS

## WEATHERMAN

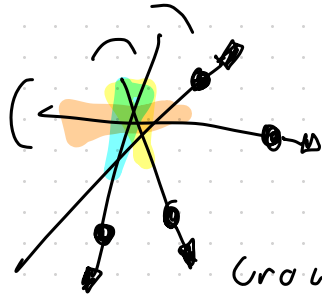

- gets blown  
around,  
points to  
weather ✓

# WEATHER DIAL

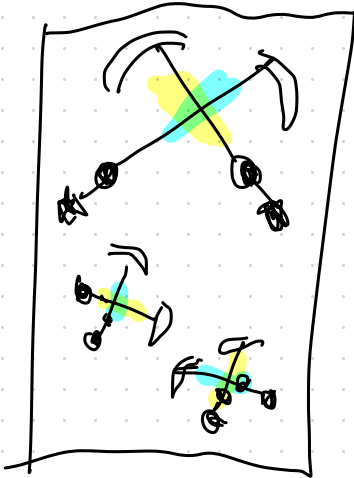

• intersections for comfort is a marvelous concept

Crowded...

For a phone:

• Showing:

Temperature X Humidity

Precip  
Intensity X Probability

Wind Speed X Cloud cover
